Upon receipt of letter dated 26 June 1949, the records were examined and it was found that [REDACTED] had been a vouchered funds employee with the Office of Strategic Services during her entire period of employment. Therefore, since we were unaware that an operational advance was made to this individual by [REDACTED] the letter from the General Accounting Office was replied to on the basis of travel advance information available in the Fiscal Branch. The result is letter dated September 9, 1949, forwarding a copy of your communication to that office dated 23 August 1946.
